SUMMARY

I am a seasoned Full Stack Developer with over 3 years of hands-on experience in crafting dynamic and responsive web applications. I excel in building and integrating complex systems, designing scalable architectures, and deploying solutions on cloud platforms. Throughout my career, I have worked on multiple projects from conception to deployment, ensuring high performance, security, and user satisfaction. I have a proven track record of improving application performance and optimizing code to enhance efficiency. I am known for my strong problem-solving skills, meticulous attention to detail, and a passion for continuous learning.

PROFESSIONAL EXPERIENCE

01/2025 - Present

Remote Riyadh

Senior Full Stack Developer
ABTech Software Solutions

PlanLog: Currently developing PlanLog, a care service platform designed to improve the quality of life for elderly individuals by providing caregivers and families with intuitive tools for managing care schedules, health monitoring, and communication. The platform emphasizes usability, performance, and scalability to ensure a seamless user experience.
Tech Used: Next.js, Node.js, Express.js and MongoDB
Status: Under active development

11/2023 - 01/2025

Islamabad, PAK

Software Engineer
Gubloo Technologies

Rockdale Wreaths: As a solo developer, I spearheaded the development of Roackdale Wreaths, an e-commerce website offering premium wreath products. I implemented UPS APIs seamlessly into the platform, enabling functionalities such as address validation, streamlined shipment processes, and efficient checkout experiences, ensuring smooth operations and enhanced customer satisfaction.
Tech Used: Next js with Tailwind, MySQL, Prisma, Authorize.net and UPS (United Postal Services).
Visit Site: https://www.rockdalewreaths.com/

Threat Defence: I developed ThreatDefence, a cybersecurity platform focused on usability, performance, and scalability. It provides an intuitive interface for advanced threat management and incident response, streamlining security operations for businesses.
Tech Used: Next js, Strapi and antd (and design)
Visit Site: https://threatdefence.com

QubitX: I worked as a frontend developer on QubitX, a portfolio website for a software company, creating interactive, brand-aligned user interfaces. I ensured a responsive and seamless browsing experience.
Tech Used: Next js and SCSS
Visit Site: https://qubitx.io/

NaturalReader: Developed the front-end of NaturalReader, a Text-to-Speech recognition application.
Tech used: Next.js, Redux and Tailwind
Visit Site: https://www.naturalreaders.com/

PROFESSIONAL EXPERIENCE

12/2022 - 11/2023

Islamabad, PAK

MERN Stack Developer
Samsoft Technologies

Deeplawn: Successfully contributed to the development of Deeplawn, an online platform for connecting homeowners with professional lawn care services.
Tech used: Nest js and Next js with Tailwind
Visit Site: https://deeplawn.com

JSoft: As a solo developer, I successfully completed JSoft, an ecommerce website that functions as a "Store of stores."
Tech used: Next js, Node, Express and Tailwind
Visit Site: https://j-soft.io

Team In: TeamIn is a comprehensive internal office system facilitating attendance tracking, salary slip generation, leave management, and other administrative tasks.
Tech Used: Next js, supabase and tailwind

09/2022 - 12/2022

Islamabad, PAK

Junior Angular Developer
SoftoSol

Scintillant Ventures: Worked on the Scintallant venture, a project that involved developing a web application using AngularJS. Contributed to various aspects of the project, including designing and implementing interactive user interfaces, integrating API endpoints for data retrieval, implementing client-side data processing and manipulation.
Tech Used: Angular, Angular Material and NgBootstrap
Visit Site: https://scintillantventures.com

2021 - Present

Remote

Freelance Developer

My Portfolio: I developed **Full-Stack Uzair Khan**, a personal portfolio website showcasing my skills, projects, and professional experience in web development. The platform highlights my expertise in full-stack development with an intuitive design and responsive user interface, providing visitors with a seamless experience.
Tech Used: Next js with Tailwind and Nodemailer
Visit Site: https://full-stack-uzair-khan.vercel.app

Other Projects: I worked on other full stack projects including my learning projects naming Vehicle Breakdown Assistant (Final Year project), Doctor appointment system and many more using MERN stack technologies.

EDUCATION

2018 - 2022

Swabi KP

Bachelor of Studies in Computer Science
University of Swabi, Pakistan

GPA **3.75** / **4.0**

2015 - 2017

Swabi KP

Intermediate pre engineering
Pakistan higher secondary school Swabi

Marks **773** / **1100**

2013 - 2015

Swabi KP

Matric in Science
The Quaid International Model School Swabi (QIMS)

Marks **876** / **1100**

TECHNICAL SKILLS

STACKS

Next js Node js Mongoose Express js MongoDB MySQL Javascript Typescript

React js Nest js Strapi Redux Tailwind CSS CSS 3 Bootstrap HTML 5 Angular

Prisma Stripe SCSS MUI Angular Material

THIRD PARTY API'S

UPS (United postal service US) API's Google maps API's
