EXPERIENCE

Senior Full Stack Developer
Nifas Medical Services Company KSA
📅 05/2025 - Present 📍 Riyadh, Saudi Arabia

- **Tech Stack:** PHP, ASP .NET, Laravel, Nopcommerce, Bagisto, Flutter, Paylink

- **JobBorsa:** Built a platform for job seekers and employers, enabling users to apply for jobs and companies to hire talent—similar to Indeed, with streamlined hiring workflows.

  Visit: http://www.jobborsa.com

- **Nifas Markets:** Developed a multi-vendor e-commerce platform using Bagisto, providing vendors with tools to manage products and sales efficiently.

  Visit: https://market.nifas.net/ar

- **Nifas:** Built an admin dashboard for a doctor appointment system along with doctor and patient mobile apps, supporting video, audio, and text consultations.

  (Internal project, no public link)

Senior Full Stack Developer
ABTech Software Solutions
📅 01/2025 - 05/2025 📍 Riyadh, Saudi Arabia (Remote)

- **Tech Stack:** Next.js, Node.js, Express.js, MongoDB, AWS, Docker

  ○ **PlanLog:** Developed a care service platform focused on elderly care management with tools for scheduling, health monitoring, and communication.

  ○ **Renzicom:** Built a magazine management system for managing stock and delivery logistics for hotels.

  ○ **QubitX**: Contributed as a frontend developer, creating responsive, brand-aligned UIs that enhance user engagement and showcase company solutions.

    Visit: qubitx.io

Full Stack Developer
GublooTech
📅 11/2023 - 01/2025 📍 Islamabad, Pakistan

- **Tech Stack:** Next.js, Tailwind CSS, MySQL, Prisma, Redux, SCSS, Authorize.net, UPS APIs, Strapi, Ant Design

  ○ **Rockdale Wreaths**: As a solo developer, I built a premium e-commerce platform for wreaths with UPS API integration, personalized recommendations, and advanced search.

    Visit: rockdalewreaths.com

  ○ **Threat Defence**: Developed a scalable cybersecurity platform with an intuitive interface for real-time threat monitoring, performance, and incident response.

    Visit: threatdefence.com

  ○ **NaturalReader**: Developed the front-end of a text-to-speech app focused on accessibility, assistive tech compatibility, and performance optimization.

    Visit: naturalreaders.com

SUMMARY

Full Stack Developer with 4+ years of experience in **JavaScript**, **TypeScript**, **ASP .NET**, **Angular**, **React**, **Next.js**, **Node.js**, **Express.js**, and **Nest.js**. Skilled in developing scalable, high-performance web applications and APIs. Currently expanding expertise in **PHP**, **Laravel**, and **DevOps (CI/CD, Docker, AWS, Kubernetes)** with a passion for building innovative, high-quality solutions.

SKILLS

KEY ACHIEVEMENTS

🏅 **Silver Medalist**
Awarded **Second Position** in the class and honored with a **Silver Medal** for outstanding academic performance during my Bachelor's degree program.

🏆 **Talent-Based Scholarship**
Consistently secured **top positions in every semester**, earning a **merit-based scholarship** throughout the academic journey for excellence in academics and maintaining a high GPA.

🎯 **Completed Over 10+ Projects Across Multiple Domains**
Successfully developed and deployed over **10 professional web applications** across diverse industries, including e-commerce, cybersecurity, healthcare, and administration, showcasing versatility and strong full-stack development skills.

EXPERIENCE

Full Stack developer (MERN)

Samsoft Technologies

📅 12/2022 - 11/2023   📍 Islamabad, Pakistan

- **Tech Stack:** Next.js, Nest.js, Node.js, Express.js, Tailwind CSS, Supabase

  - **Deeplawn**: Contributed to the development of a platform connecting homeowners with lawn care services, creating an intuitive interface for easy booking and management.

    Visit: deeplawn.com

  - **JSoft**: As a solo developer, I built a multi-vendor e-commerce platform with user authentication, vendor management, and a streamlined checkout process.

    Visit: j-soft.io

  - **Team In**: Developed an internal system for attendance, leave management, salary slips, and administrative operations to streamline employee record-keeping.

    (Internal project, no public link)

Frontend Engineer

SoftoSol & Freelancing (Before Graudation)

📅 01/2021 - 12/2022   📍 Islamabad, Pakistan

Tech Stack: Angular, Angular Material, NgBootstrap

- **Scintillant Ventures:** Developed responsive user interfaces with dynamic API integration for real-time updates, focusing on performance and smooth multi-device navigation.

  Visit: scintillantventures.com

KEY ACHIEVEMENTS

🚀 **Led Full-Stack Development for Major Platforms**
Independently handled **end-to-end development** (frontend, backend, and DevOps) for several high-impact platforms, demonstrating strong leadership, problem-solving abilities, and a focus on scalability and performance.
